I would like to share the feedback. This is ISSAC NEWTON A from IDBI FEDERAL LIFE INSURANCE Erode branch. Me and my team has conducted the interview at SCAS for final year students. The students have a good communication skills and knowledge. And the campus infrastructure and environment was too good. And the placement team and coordinators helped and coordinate the students for recruitments. Proud to be a reputed recruiter for the past 4 years.

Thank you very much for all your assistance with planning and execution our Campus interviews at SCAS. Your expertise in handling the hospitality, the meeting arrangement room, the multimedia presentations, the travel claim, coordinating with team and students, and in organizing the event were greatly appreciated. I can say one of the best coordinating team ever seen in my campus drive tour. I really appreciate your help and I am sure we will be contacting you for your assistance with our next process.Saying about the students were very disciplined, good attitude and quite understandable, patience and controlled.My only concerned - they should be put for training on communication skills and domain knowledge. Interview is a process through which the recruiter evaluates our skill and knowledge. At the same time ,it is an excellent moment through which one can know about ourselves, our confidence, skill, knowledge etc. I had attended my interview with more eagerness and less anxiousness. In the beginning of the interview, I was struggling to deliver the ideas which I was very familiar. As I was speaking continously my anxiousness flew away. I had become normal and got selected in my first interview . It was an extraordinary experience for my further interviews. Sequentially I got selected in seven interviews. Now I am very confident to face any interview. I thank our institution and HRDC for this opportunity.
